Windows operacinėje sistemoje turi būti įrašyti šakniniai sertifikatai (root certificate).

Čia pateikiame instrukciją, kaip juos reikia įsirašyti:

Spauskite ant nuorodos:

http://sk.ee/en/Repository/certs/rootcertificates

paskutinėje eilutėje EID-SK 2011 spustelk ant "DER" failo, spauskite open, tada install certificate -> next -> pasirinkite "place all certificates in following store" -> ir patalpinkite jį į "Trusted root certificate authorities" folder'į. Tą patį reikės padaryti ir su "PEM" failu, kuris buvo šalia "DER" failo.

Do you v	ant to open or save this file?
	Name: eid-sk_2011.cer Type: Security Certificate, 1,25KB From: www.sk.ee Open Save Cancel
i 🚺	/hile files from the Internet can be useful, this file type can otentially harm your computer. If you do not trust the source, do ben or save this software. <u>What's the risk?</u>

Jeigu atsidaro šis langas, renkamės "Allow"
